2. redline version of the IRIS Summary (redline is a strict compare, via Word, of final doc with the doc submitted to Step 6)

Final documents for posting on database

2. clean HERO/508 compliant version of the IRIS Summary (gets posted to database)

Interagency documents for posting on the IRIS website when final documents go on database (note: I don't have the HERO documents mentioned below, you'll need to pull those out and send to Maureen in the near future)

1. clean HERO/508 compliant version of the Step 6 Interagency Science Discussion Toxicological Review and Appendices
2. clean HERO/508 compliant version of the Step 6 Interagency Science Discussion IRIS Summary
3. clean 508 compliant PDFs of the interagency comments received (I'll send PDFs to team in near future)
4. clean HERO/508 compliant response to major interagency comments (separate document, not included in Appendices, examples attached [for DCM and biphenyl] and can look at the archived interagency pages for chemicals posted since July 2011)
5. Website language for this page (I'll work with Maureen Johnson on this)

For the Appendix for the Implementation of the NRC Recommendations: please see the NRC related text in the Preface of the Tox Review and NRC Appendix of the Supplemental Information for the benzo[a]pyrene external review draft assessment (see attached docs).
